

Aquafirme Hydrofacial — Service Knowledge Document

What It Is

The Aquafirme Hydrofacial is a medical-grade facial treatment that deeply cleanses, exfoliates, extracts impurities, and hydrates the skin using advanced water-based technology. It's a multi-step treatment that delivers instant, visible results with zero downtime.

How it works:

- Combines cleansing, exfoliation, extraction, hydration, and antioxidant protection
- Uses patented vortex technology to remove dead skin and debris
- Simultaneously delivers customized serums deep into the skin
- Vacuum-based extraction painlessly clears pores

What it treats:

- Dull, congested skin
- Fine lines and wrinkles
- Uneven skin tone and texture
- Enlarged pores
- Oily and acne-prone skin
- Hyperpigmentation and sun damage
- Dehydrated skin

Key benefits:

- Immediate glow and hydration
- Deep pore cleansing without irritation
- Customizable for all skin types
- Gentle enough for sensitive skin
- No downtime—social-ready immediately

Who Should NOT Get It

Generally safe for everyone, but consult provider if you have:

- Active rash, sunburn, or open wounds on face
- Severe inflammatory acne or cystic acne (may need modified approach)
- Recent cosmetic procedures (wait 2 weeks after injectables, laser, or chemical peels)
- Allergies to specific skincare ingredients

Pregnancy/breastfeeding:

- Hydrafacials are generally safe, but let us know during booking so we can customize products appropriately

We customize facials for all skin types and conditions—just discuss your concerns during your appointment or free consultation.

Typical Session Length

Signature Hydrofacial: 30-40 minutes

- Perfect for lunch breaks or quick refreshes

Deluxe Hydrofacial: 60-75 minutes

- Ideal when you have time to fully relax and pamper yourself

Both appointments include:

- Skin assessment and consultation
- Treatment
- Post-care instructions and product recommendations

Typical Downtime

ZERO downtime!

Immediately after:

- Glowing, hydrated, refreshed skin
- Slight pinkness (fades within 1-2 hours)
- Makeup can be applied right away (though your skin will look so good you may not want to!)

What you can do immediately:

- Return to work or social activities
- Apply makeup
- Go to events or take photos
- Resume normal skincare routine

What to avoid for 24 hours (optional but recommended):

- Excessive sun exposure (always wear SPF)
- Harsh exfoliating products
- Very hot showers or saunas

Results timeline:

- **Immediate:** Visible glow, smoothness, hydration
- **Peak results:** 5-7 days as serums continue working
- **Maintenance:** Monthly treatments recommended for sustained results

What Results People Often Notice

Immediately after treatment:

- Instant radiance and glow
- Deeply hydrated, plump skin
- Smoother texture
- Reduced appearance of pores
- Clearer, more even skin tone
- Softer, supple skin

Within days:

- Continued improvement in texture
- Reduced blackheads and congestion
- More even complexion
- Brighter, more luminous skin

With regular treatments (monthly):

- Improved skin health and resilience

- Reduced fine lines over time
- Better product absorption from your home skincare
- More balanced oil production
- Clearer, healthier complexion long-term

What it does NOT do:

- Eliminate deep wrinkles (consider fillers or RF microneedling)
- Treat severe acne cysts (may need medical treatment)
- Provide permanent results (maintenance needed)
- Tighten significantly loose skin

Aftercare Basics

First 24 hours:

- Wear SPF 30+ sunscreen (essential!)
- Avoid direct sun exposure when possible
- Use gentle, hydrating skincare products
- Avoid harsh exfoliants or retinoids
- Stay well-hydrated (drink plenty of water)

Recommended home care:

- Continue using gentle cleanser and moisturizer
- Apply recommended serums from your provider
- Always use sunscreen daily
- Avoid picking at skin or extractions

To maximize results:

- Schedule treatments monthly for optimal skin health
- Follow personalized product recommendations
- Maintain good skincare routine at home
- Stay hydrated and eat skin-healthy foods

When to book next treatment:

- For maintenance: Every 4-6 weeks
- For special events: 1-3 days before (allows any minor pinkness to fade)
- For specific concerns: Series of 3-6 treatments initially

FAQs

Which facial should I choose—Signature or Deluxe?

- **Signature** is perfect if you're short on time, want efficient results, or maintaining already-healthy skin
- **Deluxe** is ideal for special events, when you want extra pampering, or have specific skin concerns needing targeted treatment

Think of Signature as results-focused maintenance and Deluxe as a comprehensive experience with added relaxation and enhancements.

How often should I get a Hydrafacial? Monthly is ideal for maintaining optimal skin health. Many clients make it part of their regular self-care routine.

Can I get a Hydrafacial with sensitive skin? Yes! Hydrafacials are gentle and can be customized for even the most sensitive skin. We'll adjust products and pressure to suit your skin's needs.

Is there any pain or discomfort? No! Most people find Hydrafacials relaxing and soothing. The extraction process uses gentle suction rather than manual squeezing, so it's much more comfortable than traditional facials.

Can I wear makeup afterward? Yes, immediately! However, your skin will look so good you may not need it. If you do apply makeup, wait until any slight pinkness fades (usually within an hour).

When will I see results? Immediately! You'll leave with glowing, hydrated skin. Results continue to improve over the next 5-7 days as the serums work deeper.

How is this different from a regular facial? Hydrafacials use advanced technology for deeper cleansing and better serum penetration. They're more effective at extractions and provide more immediate, visible results than traditional facials.

Can I get a Hydrafacial before an event? Absolutely! Book 1-3 days before your event for optimal timing. Your skin will be glowing and photo-ready.

Will it help with acne? Yes! The deep cleansing and extraction helps clear pores and can improve acne-prone skin. For severe or cystic acne, we may recommend a modified approach or combining with other treatments.

Can I get this if I have rosacea? Yes! We can customize the treatment to be extra gentle and use calming serums specifically for rosacea-prone skin.

What's the difference between this and a chemical peel? Hydrafacials are gentler with zero downtime and immediate glow. Chemical peels penetrate deeper and may cause peeling for several days. Both have their place—we can help you choose during consultation.
